Every russian looks like Putin right now!

10/10.. They look ugly as hell. I would request western slavic portraits but they'd probably look ugly too.. They're ugly but might get a redone one day.. Even more pointless DLC flavor than usual... A nice add-on for flavor.. It's good for flavour but not much else. Everybody looks like Vladimir Putin! :). These portraits do the slavs no favors, as well as they are limited to a small area, meaning slavs can actually die out in your game.. I give positive recommendation BUT ONLY because i like diversity in the game. If you dont care about it then you now your choice already. Why such a strange review, well male portraits are good but female mostly are not. Few combinations give female characters nice looks (yeah i know dark ages).

Offtopic for game designers make female portraits a little more appealing to the eye. Would pay for WEST SLAVIC PORTRAITS DLC (Polish,Czech,Slovakian,Croatian,Serbian) If russians can have theirs we should too.

the only mod i turned off because of ugly women portraits. They are all the same. Paradox DLC is the reason there was a Cold War.
